Fits 300C Only
Installation Instructions

Hardware Kit: (8) K-Lock Nuts (8) Stainless Steel Brackets

Step 1: Remove the black plastic filler panel from each bumper pocket by removing the four clips that hold them in (Figure 1).

Figure 1

Figure 2

Step 2: Attach four stainless steel brackets to the backside of each bumper grille using the k-lock nuts (Figure 2). Make sure that the hook part of the bracket is pointing towards the grille and do not tighten the k-lock nuts yet.

Step 3: Place each wire mesh grille into the appropriate bumper pocket. Using the hook side of the stainless steel bracket attach the grille to the bumper.

Step 4: Center each wire mesh grille in the bumper pocket.

Step 5: Secure all hardware. It may be necessary to hold the wire mesh grilles centered while tightening.

Installation Is Now Complete!!!!
